

## Higher Education Solutions

Maximize achievement, foster collaboration, and keep students and faculty safe.

The right technology platform can enable an institution to delivery high-quality instruction and a safe, vibrant on-campus experience.

- Networking & Connectivity – create a network to support your campus with wired & wireless networking, virtualization, storage, cloud & hybrid solutions
- Network Security – ensure the right access for the right people at the right time
- Cloud & Hosted Solutions – scale seamlessly and deliver a high level of service to users without being tied to a physical data center
- Protected Campus – holistic security solutions bring together video surveillance, access control, visitor management, and mass communication
- Large Venue / Pro Audio - Integrated communications solutions for any venue in which audio, audio-video, security are needed.
