

Introducing CloudBlu

New Era Technology's "As a Service" Portfolio of Cloud Solutions

Deliver communication and collaboration services to users faster than ever with our full suite of cloud-hosted services delivered from a highly secure, virtualized platform under a centralized management system. Offer reliability, increase operational efficiency, boost agent productivity, and gain the flexibility your business needs.

New Era's "As a Service" portfolio makes it easy to migrate technology and applications to the cloud and offload much of the hardware and power demands that come with maintaining a network. We deliver the benefits of industry-leading technology, outstanding service level agreements, and predictable operation costs.
